

Become a
member
of the most
authoritative
source for
radiologic
science and
education.

5 Reasons to Join RSNA:

- 1 Complimentary admission, with advance registration, to the world's premier medical meeting
- 2 Subscriptions to leading radiology journals *Radiology* and *RadioGraphics* and newsmagazine *RSNA News*, all available in print and online
- 3 CME credit opportunities, including free resources and discounts on RSNA Education products
- 4 Online resources to organize, personalize and utilize radiology information available on the Web
- 5 Grant opportunities for researchers at all career stages to forward radiologic science and education

Become a top performer in your field. Join today.

RSNA Annual Meeting

The world's premier medical meeting offers an unparalleled opportunity to network with the world's top radiologists, earn needed CME credit and stay current in the latest radiology developments:

- More than 300 refresher courses
- Scientific paper and poster presentations on cutting-edge radiologic research
- More than 1,000 education exhibits
- 700+ technical exhibits displaying the newest radiologic technology
- Hands-on workshops featuring expert demonstrations

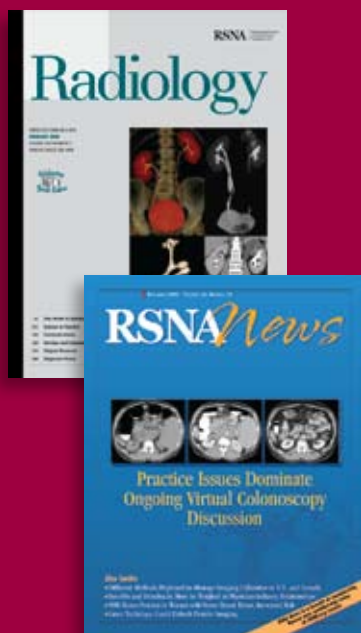

Publications

RSNA publications are the authority in research, education and news affecting your specialty:

Radiology—The leading peer-reviewed journal, offering the most current, clinically relevant and highest-quality radiology research and state-of-the-art reviews. With the highest impact factor among general diagnostic radiology journals, *Radiology* is the publication of choice in the radiology community.

RadioGraphics—The only journal dedicated to bringing the best in peer-reviewed educational materials to practicing radiologists, trainees, medical physicists and other radiologic scientists. Physicians can earn CME credit by reviewing articles and taking tests.

RSNA News—An award-winning monthly newsmagazine providing the latest news from the radiology community and up-to-date information on RSNA events and offerings.

Education and Science

RSNA's lifelong learning and self-assessment programs keep members at the top of their field:

- **Education Center Store**—Search and purchase RSNA education resources online (most are free to members).
- **InteractED®**—Access more than 300 peer-reviewed programs for *AMA PRA Category 1 Credit™*.
- **Self-Assessment Modules (SAMs)**—Use peer-reviewed self-assessment materials in a variety of subspecialty content areas.
- **My Professional Learning Map**—Create a practice profile, enter CME requirements, analyze your CME history and develop personalized action plans.
- **Resident Learning Portfolio**—Document educational progress.
- **Grantwriting and Research Programs**—Gain a practical edge in planning research and securing funding.

Online Tools

RSNA makes your job easier by providing convenient access to limitless online radiology resources with a variety of Web-based programs:

- **myRSNA® personalized portal**—Customize your own Web page with your preferred radiology resources and personal files.
- **Virtual Meeting**—Explore lectures, education exhibits and scientific presentations from RSNA annual meetings.
- **Career Connection**—Find a job or an employee with RSNA's radiology specific site.
- **Medical Imaging Resource Center (MIRC®)**—Access large libraries of shared images and teaching files for reference in education, research and clinical practice.

Research & Education Foundation

Grants from the RSNA Research & Education Foundation support high-impact radiology research, open doors for subsequent funding and encourage recipients to pursue careers in research and academia:

- Grants available for radiologic research and development of radiologic education
- Each dollar awarded generates more than \$30 in subsequent grants
- 62 new and continuing grants funded in 2008, totaling more than \$1.8 million
