

The Best Peer-Reviewed Educational Material in Radiology

RadioGraphics is a top source for achieving self-assessment continuing medical education (SA-CME) credits toward maintaining professional certification. The publication emphasizes material presented at the annual meeting of the Radiological Society of North America (RSNA), for radiologists, trainees, physicists, and other radiologic professionals.

Each issue features:

- Educational exhibits from the RSNA annual meeting in a convenient electronic format
- Testing for CME in the practitioner's course of self-assessment and life-long learning
- Image-based educational content in the radiologic subspecialties

RadioGraphics is published bi-monthly, online and in print, and features a special monograph issue each October.

ASK YOUR LIBRARIAN HOW TO ACCESS THIS VALUABLE LEARNING TOOL

To search by issue:

- 1 Go to the *RadioGraphics* homepage: ***RSNA.org/RadioGraphics***.
- 2 Click on "All Issues".
- 3 Once under the "All Issues" tab, simply select the year, volume, and issue. You will have the option to view the article as an Abstract, read the First Page, view the Full Text in html or PDF format, or see Figures Only.

To search by topic:

- 1 Enter a topic in the search box on the *RadioGraphics* homepage to find articles on a particular topic.
- 2 Select an article from the list and indicate how to view it, such as an Abstract or Full Text (PDF) format.
- 3 You can filter your search by article type, keywords, and publication date.
- 4 Use the dashboard tools to add a search to your list of favorites, set an alert to receive new results, email the article to a friend or colleague, download the article, or track the article's citations.
