Uploading your presentation

When you have finished your presentation, you'll need to upload it into the audiovisual submission site. Follow the instructions below to successfully add your files into Orchestrate—the hub for your presentation needs.

Step one

Click here to upload your presentation: https://rsna2022.sessionupload.com/

- Enter your eight-digit RSNA Customer ID
- Password: rsna2022

Once you are logged in, you will then be required to set a new password, which must be at least six characters in length.

Step two

You will receive a confirmation email once your files have been successfully uploaded into Orchestrate.

If you don't receive a confirmation email within an hour, contact *orchestrate@freemanco.com*. Please be sure to check your spam or junk folder for the upload confirmation.

Note: In the event you need to make changes to a PowerPoint presentation that you have already submitted, you may resubmit the files on the website using a new file name—you should delete the earlier submission. You cannot edit your original presentation via the website.
