

## RSNA Pediatric Bone Age Challenge Acknowledgements

RSNA would like to thank Stanford University, the University of Colorado and the University of California - Los Angeles for contributing the imaging datasets and annotations used in the challenge.

The challenge was designed and organized by the RSNA Pediatric Bone Age Machine Learning Challenge Organizing Committee:

- Kathy Andriole, Massachusetts General Hospital
- Brad Erickson, Mayo Clinic
- Adam Flanders, Thomas Jefferson University
- Safwan Halabi, Stanford University
- Jayashree Kalpathy-Cramer, Massachusetts General Hospital
- Marc Kohli, University of California - San Francisco
- Luciano Prevedello, The Ohio State University

The MedICI platform (built CodaLab) used for the challenge is provided by Jayashree Kalpathy-Cramer, supported through NIH grants (U24CA180927) and a contract from Leidos.
