

## **Screening Mammography Breast Cancer Detection Challenge Acknowledgements**

RSNA would like to thank the following individuals and organizations whose contributions made possible the 2023 RSNA Screening Mammography Breast Cancer Detection AI Challenge:

### **Challenge Organizing Team**

- Katherine P. Andriole, PhD - MGH & BWH Center for Clinical Data Science
- Robyn Ball, PhD - The Jackson Laboratory
- Yan Chen, PhD - University of Nottingham
- Helen Frazer, MBBS - BreastScreen Victoria
- Tatiana Kelil, MD - University of California - San Francisco
- Felipe Kitamura, MD - Universidade Federal de São Paulo
- Jackson Kwok - BreastScreen Victoria
- Matthew Lungren, MD - Stanford University
- Ritse Mann, MD, PhD - Radboud University Medical Center
- John Mongan, MD, PhD - University of California - San Francisco
- Linda Moy, MD - New York University Grossman School of Medicine
- George Partridge - University of Nottingham
- Hari Trivedi, MD - Emory University
- Xin Wang, PhD - Radboud University Medical Center
- Luyan Yao, PhD - University of Nottingham
- Tianyu Zhang - Radboud University Medical Center

### **Data Contributors**

Two research institutions provided large volumes of de-identified mammography studies and related clinical information that were assembled to create the challenge dataset.

*BreastScreen Victoria, Australia*

- Helen Frazer, MBBS FRANZCR M.Epi
- Michael S. Elliott, BEng (Hons)

*Emory University | Health Innovation and Translational Informatics (HITI) Lab*

- Hari Trivedi, MD
- Judy Gichoya, MD
- Minjae Woo, PhD
- Imon Banerjee, PhD
- Jason Jeong, PhD
- Beatrice Brown-Mulry, BS

Special thanks to *MD.ai* for providing tooling for the data annotation process.

# kaggle

Special thanks to *Kaggle* for providing the competition platform, as well as design and technical support.
