BEST IN CLASS
RADIOLOGY JOURNALS

Radiology

An authoritative peer-reviewed reference for the most current, clinically relevant and highest quality research in the field of medical imaging

- Published online monthly
- #1 of 135 in radiology, nuclear medicine and medical imaging publications
- Statements and Guidelines, visual abstracts, podcasts
- Radiology in Training provides resident and fellow participation in editorial board activities
- Images in Radiology captures the excitement and innovation of imaging and discovery

Indexed in PubMed (MEDLINE), Scopus and Web of Science—Science Citation Index Expanded

RadioGraphics

Devoted to publishing the best peer-reviewed educational material in the field for radiologists, trainees, physicists and other radiologic professionals

- Published online monthly
- October special monograph issue
- #20 of 135 in radiology, nuclear medicine and medical imaging publications
- Top source for earning continuing medical education credits
- Podcasts and videos with author interviews, article summaries, teaching points
- Video and animation tutorials of fundamental procedures, techniques, diagnostic approaches

Indexed in PubMed (MEDLINE), Scopus and Web of Science—Science Citation Index Expanded
Radiology: Artificial Intelligence

Highlights the emerging applications of AI, machine learning and data science in the field of imaging across multiple disciplines, keeping readers up to date with ever-evolving innovation in the field.

- Published online bi-monthly
- Peer-reviewed articles on impact of AI on diagnostics, patient care, radiology education
- Podcasts, videos, live Tweetchats, The Vasty Deep official blog
- Magician’s Corner: learn how to apply AI concepts from an expert

Indexed in PubMed Central, Scopus and Web of Science—Emerging Sources Citation Index

Impact Factor: 9.8

Radiology: Cardiothoracic Imaging

The authoritative peer-reviewed source for cardiac, vascular and thoracic imaging science, innovation and education.

- Published online bi-monthly
- Case Reports & Studies on less common cardiothoracic occurrences
- Impactful Consensus Statements to guide practice and bedside manner
- Special collections covering trending issues

Indexed in PubMed Central, Scopus and Web of Science—Emerging Sources Citation Index

Impact Factor: 7.0

Radiology: Imaging Cancer

The meeting place for cancer care, peer-reviewed research and radiology professionals advancing the field and patient care.

- Published online bi-monthly
- The latest clinical and translational cancer imaging studies
- A behind the scenes look into cancer treatment from the patient’s perspective
- Research highlights written by residents

Indexed in PubMed (MEDLINE), Scopus and Web of Science—Emerging Sources Citation Index

Impact Factor: 4.4
Legacy Collections

**Radiology Legacy Collection**
Archive of *Radiology* issues dating back to the journal’s debut
- 85+ years of articles dating back to 1923
- Historical images and vintage advertisements
- One-time purchase for continuous access

**RadioGraphics Legacy Collection**
Archive of *RadioGraphics* issues dating back to the journal’s debut
- 35+ years of articles dating back to 1981
- Access single-topic monograph issues and curated study guides
- One-time purchase for continuous access
