PUBLIC SERVICE ANNOUNCEMENT

For release during September 2023

For more information:

Don Ferreira (630) 481-1025

dferreira@rsna.org

SUBJECT: SEPTEMBER IS OVARIAN CANCER AWARENESS MONTH

Time: 30 seconds

Ovarian cancer is a leading cause of cancer-related death because early symptoms are often overlooked. Your doctor may use pelvic exam, ultrasound, or blood tests to diagnose any symptoms.

Obesity, increasing age, and a history of breast or ovarian cancer may increase your risk. While white women have a higher rate of ovarian cancer diagnosis, Black women are more likely to die from the disease.

For more information, visit Radiology-Info-dot-org.
