

## **PUBLIC SERVICE ANNOUNCEMENT**

**For release during September 2019**

**For more information:  
Don Ferreira (630) 481-1025  
dferreira@rsna.org**

**SUBJECT: SEPTEMBER IS PROSTATE CANCER AWARENESS MONTH**

**Time: 30 seconds**

September is Prostate Cancer Awareness Month.

Prostate cancer is a leading cause of cancer death in American men. African-Americans, men over 65 and those with a family history of the disease are at a higher risk.

Early prostate cancer often shows no symptoms. If you have concerns about prostate cancer, ask your doctor about available diagnostic tests and whether they're right for you.

For more information, visit *RadiologyInfo.org*.
