

Radiologist Perspective Report: *Top Issues 2023*

TABLE OF CONTENTS

1. Organizational Overview
2. Survey Objectives
3. Respondent Profile
 - a. Demographics by region, subspecialty, modality, practice type, experience level, institution type and funding body
4. Key Findings & Recommendations for Industry Business Managers
5. Top Issues of Importance to Radiologists
 - a. Summary comparison chart of the top issues compared (9 key issues reported)
 - i. Total (Global Findings)
 - ii. By Region
 1. North America
 2. Europe
 3. Asia-Pacific
 4. Latin America
 5. Africa / Middle East
 - iii. By Subspecialty
 1. Neuroradiology / Head & Neck
 2. Gastrointestinal / Genitourinary
 3. Breast Imaging
 4. Musculoskeletal (MSK)
 5. Interventional
 6. Generalist
 - iv. By Modality Used by Radiologist
 1. Computed Tomography (CT)
 2. Magnetic Resonance (MR)
 3. X-ray (XR)
 4. Ultrasound (US)
 5. Positron Emission Tomography (PET)
 - v. By Radiologist Practice Type
 1. Academic
 2. Private Practice
 - vi. By Experience Level of Radiologist
 1. Early career
 2. Mid to late career
 - vii. By Institution Type
 1. Hospital
 2. Imaging clinic
 - viii. By Funding Body
 1. Government-funded / public healthcare
 2. Non-government-funded / private healthcare
