

Radiologist Perspective Report: *Artificial Intelligence 2023*

TABLE OF CONTENTS

1. Organizational Overview
2. Survey Objectives
3. Respondent Profile
 - a. Demographics by region, country, practice type, experience level, modality, work setting, and subspecialty
4. Key Findings & Recommendations for Industry Business Managers
5. AI Product Type Comparison
 - a. Comparison of AI for clinical workflow prioritization vs. diagnostic assistance
 - i. Belief in product usefulness
 1. by practice type
 - ii. Adoption, mandated use, and level of trust
 - iii. Product mix
 1. by region
 2. by subspecialty
 3. by practice type
 - b. AI for clinical workflow prioritization
 - i. Belief in product usefulness
 1. global
 2. by region
 3. by subspecialty
 4. by practice type
 - ii. Adoption, mandated use, and level of trust
 1. global
 2. by region
 3. by subspecialty
 4. by practice type
 - c. AI for diagnostic assistance
 - i. Belief in product usefulness
 1. global
 2. by region
 3. by subspecialty
 4. by practice type
 - ii. Adoption, mandated use, and level of trust
 1. global
 2. by region
 3. by subspecialty
 4. by practice type
6. Barriers, Future Intent, and Sourcing of AI Products
 - a. Barriers to AI adoption
 - i. global
 - ii. by region
 - iii. by subspecialty
 - iv. by practice type
 - b. Future intent for AI adoption
 - i. global
 - ii. by region
 - iii. by subspecialty
 - iv. by practice type
 - c. Sourcing of AI products
 - i. global
 - ii. by region
 - iii. by subspecialty
 - iv. by practice type
7. USA Special Report
 - a. AI utilization
 - i. Comparison of AI product utilization – for clinical workflow prioritization vs. diagnostic assistance
 1. Belief in product usefulness
 - a. by practice type
 2. Product mix
 - a. by subspecialty
 - b. by practice type
 - ii. AI for clinical workflow prioritization
 1. Usefulness
 - a. by subspecialty
 - b. by practice type
 2. Adoption, mandated use, and level of trust
 - a. by subspecialty
 - b. by practice type
 - iii. AI for diagnostic assistance
 1. Usefulness
 - a. by subspecialty
 - b. by practice type
 2. Adoption, mandated use, and level of trust
 - a. by subspecialty
 - b. by practice type
 - b. Barriers, Future Intent, and Sourcing of AI Products
 - i. Barriers to AI adoption
 1. by subspecialty
 2. by practice type
 - ii. Future intent for AI adoption
 1. by subspecialty
 2. by practice type
 - iii. Sourcing of AI products
 1. by subspecialty
 2. by practice type
