

Peninsula / Extended Header Exhibit

The minimum booth size is 10' x 20' with two corners and three open sides, creating an "end cap." Only a 10' wide backwall can be built within a peninsula exhibit. No part of the backwall may exceed a height of 8' from the floor of the exhibit hall. Each 5' side of the backwall cannot exceed the height of 4' as not to block the view or impede the site lines of neighboring exhibitors. Hanging signs are not permitted. Floor covering is mandatory.

RSNA will set each peninsula booth with 8' high back drape, 3' high side rail and a 17"x11" identification sign.

Peninsula Extended Header – **NEW for 2025**

- All rules for the Peninsula booth apply to the Extend Header, except that the center extended header can be up to 8' high, 4' wide and extend 9' from the backwall
- Monitors are not allowed on the front of the extended header
