

Radiology: Imaging Cancer

MISSION

Radiology: Imaging Cancer fosters communication, scientific discovery and technology advances across imaging and image-guided interventions in cancer and promotes collaborations with the broader oncological research and clinical communities.

OBJECTIVES

Cover the best clinical and translational cancer imaging studies across organ systems and modalities, including leading edge technological developments.

DESCRIPTION

Radiology: Imaging Cancer provides a meeting place for cancer care, research and radiology professionals to advance the field and health of their patients. We pull back the curtain on the cancer treatment experience from the patient's perspective to inspire meaningful care delivery and lead the charge in guiding top oncology case management.

AT-A-GLANCE

Title	<i>Radiology: Imaging Cancer</i>	
ISSN (Print)	Not Applicable	
ISSN (Online)	2638-616X	
URL	https://pubs.rsna.org/journal/imaging-cancer	
Format available	Online	
Subscription provides	Access to the current year	
LEGACY CONTENT	Not Applicable	
Publication calendar	Jan. 1–Dec. 31	
Publication	6 times / year	
Complete run of publication (years of content available)	September 2019 Vol. 1 Issue 1 - current year	
Discoverable in	• PubMed (MEDLINE) • Scopus • Web of Science - Emerging Sources Citation Index	
Rank	• Ranked 15 out of 217 • Ranked 53 out of 333	in radiology, nuclear medicine and medical imaging in oncology
Impact factor 2025	7.2	
Total Citations	1,036	
Eigenfactor	0.00174	
Transformative Agreement	Read & Publish	Yes
