

Grant Recipient Donors

Gifts from grant recipients to the RSNA Research & Education (R&E) Foundation hold exceptional significance. These contributions not only empower the Foundation to advance the future of radiology through the development of emerging investigators and the support of lifelong research and education—they also reflect a deep, personal understanding of the critical importance of this work. We extend our sincere gratitude to the R&E grant recipients who generously contributed this year to help fund radiology's future.

Grant recipient donors listed below have made a gift to the Foundation during the current giving year, October 1, 2024, through July 18, 2025. Presidents Circle donors (a gift of \$1,500 or more annually) are in boldface.
