SUSTAINABILITY

RSNA is committed to hosting one of the most sustainable meetings in the industry. Waste diversion is the prevention and reduction of generated waste through source reduction, recycling, reuse or composting. Waste diversion generates a host of environmental, financial, and social benefits, including conserving energy, reducing disposal costs, and reducing the burden on landfills and other waste disposal methods. Through our recycling efforts at the 2015 meeting we had a facility diversion rate of 64.3 percent.

RSNA 2015 environmental statistics:

- 3,298 trees saved
- 15,324 gallons of oil conserved
- 775,920 kWh/Tons electricity saved
- 1,357,860 gallons of water conserved
- 387,960 total pounds recycled
