

ATTEND RSNA'S

CREATING AND OPTIMIZING THE RESEARCH ENTERPRISE (CORE) WORKSHOP

Learn how to build strategies for developing and advancing imaging research programs in radiology, radiation oncology, and nuclear medicine departments.

DATES

Friday, October 2 – Saturday, October 3, 2015

LOCATION

RSNA Headquarters, Oak Brook, Illinois

WHO SHOULD ATTEND

Radiology chairs, vice chairs of research, and researchers from departments of radiology, radiation oncology, and nuclear medicine.

REGISTRATION INFORMATION

Complete the online registration at RSNA.org/CORE.

REGISTRATION DEADLINE:

September 3, 2015

TOPICS INCLUDE:

- Managing with Constrained Resources
- Radiology Research Training
- Faculty Recruitment and Retention
- Strategies and Models for Imaging Research
- Industrial-Academic Collaborations
- Research Program Funding and Initiatives

LEARNING OBJECTIVES:

- 1** Articulate the key components and strategies needed to develop and manage successful imaging-related research programs in radiology, nuclear medicine and radiation oncology departments.
- 2** Provide recommendations related to imaging-related research infrastructure, faculty development, and sources of research support.
- 3** Identify methods to develop, mentor, and reward radiologic scientists for research in imaging and image-guided therapy.
- 4** Provide guidance to radiology, nuclear medicine, and radiation oncology faculty so that they may compete more effectively for investigator-initiated research grants.
- 5** Identify barriers to further success in imaging-related research.

Register online at RSNA.org/CORE
