

2018 CLINICAL TRIALS METHODOLOGY WORKSHOP

► Location and Workshop dates:

Coronado Island Marriott Resort & Spa, Coronado, CA
January 6-12, 2018

► Learning objectives:

Acquire the tools and expertise to develop a protocol and become a funded principal investigator for imaging clinical trials.

► Who should apply:

MD and PhD investigators who are junior faculty members in radiology, radiation oncology or nuclear medicine departments. Mid-career faculty will also be considered.

► Application deadline:

June 30, 2017. Applications are available online at RSNA.org/CTMW. For more information, contact Fiona Miller at 1-630-590-7741 or dor@rsna.org.

Note: Candidate's department must commit to providing financial support for transportation and hotel (onsite stay required).

The Radiological Society of North America (RSNA®) is holding its 13th Clinical Trials Methodology Workshop. Applicants will undergo a competitive selection process for entrance into the 6½-day course. Successful applicants will participate in advance preparation, didactic sessions, one-on-one mentoring, small-group discussion sessions, self-study and individual protocol development. Participants will learn how to develop protocols for the clinical evaluation of imaging modalities. Familiarity with basic concepts and techniques of statistics and study design is required.

A dynamic and experienced faculty will cover topics including:

- Principles of clinical study design
- Statistical methods for imaging studies
- Practicalities of running a clinical trial
- Sponsorship and economics of imaging trials
- Regulatory processes

Apply today at RSNA.org/CTMW

This live activity has been approved for *AMA PRA Category 1 Credit™*.
